

NEWP32 Transport green corridors: literature review, options appraisal and opportunity mapping

Annex 4 - Copyright information for all spatial data

First published 15 December 2014

Copyright information for all spatial data

The datasets collected for both Humberhead Levels and Morecambe Bay NIAs are as follows:

- NIA boundaries (Natural England);
- Road and rail infrastructure (OS open data);
- Ecological designations including Special Areas of Conservation (SACs), Special Protection Areas (SPAs), Ramsar sites, Sites of Special Scientific Interest (SSSIs) and National Nature Reserves (NNRs) (Natural England);
- Priority habitats and ancient woodland sites (Natural England);
- Land Cover Map 2007 (Centre for Ecology and Hydrology);
- National biodiversity climate change vulnerability assessment metrics (Natural England);
- Flood warning areas (Environment Agency);
- Water Framework Directive river ecological status (Environment Agency);
- Higher Level Stewardship boundaries and options (Natural England);
- Ecosystem services potential (Natural England);
- Highways Agency EnvIS data (Highways Agency); and
- Network Rail leaf fall tree survey data (Network Rail).
