

Identification of Functionally Linked Land supporting SPA waterbirds in the North West of England – Phase 2 Appendix 6 – Bowland Ecology Bird Survey Results Maps

BOWLAND ECOLOGY. 2022. December 2022

Natural England Commissioned Report NECR483

This document includes maps showing the results from the surveys in 2022, undertaken by Bowland Ecology to investigate certain areas in the North West that were found to have 'no data' in the [NECR361 FLL Project 2021](#). The areas visited by Bowland Ecology are symbolised according to the FLL classification, main habitat type and disturbance.
