Geology

Drift Geology

- Alluvium
- Black park gravel formation
- Boyn hill gravel formation
- Chelsfield gravel formation
- Clay-with-flints formation
- Crayford silt member
- Dollis hill gravel formation
- Enfield silt member
- Finsbury gravel member
- Gerrards cross gravel formation
- Glaciofluvial deposits, mid pleistocene
- Glaciolacustrine deposits, mid pleistocene
- Hackney gravel member
- Head
- Ilford silt member
- Interglacial lacustrine deposits
- Kempton park gravel formation
- Langley silt member
- Lowestoft formation
- Lynch hill gravel member
- Peat
- River terrace deposits (undifferentiated)
- Roding silt member
- Sand and gravel of uncertain age and origin
- Shepperton gravel member
- Stanmore gravel formation
- Taplow gravel formation
- Tidal river or creek deposits
- Winter hill gravel
- Woodford gravel formation

Bedrock Geology

- Bagshot formation
- Claygate member
- Harwich formation
- Holywell nodular chalk formation and new Pit chalk formation (undifferentiated)
- Lambeth group
- Lewes nodular chalk formation
- Lewes nodular chalk formation, seaford chalk Formation and newhaven chalk format
- London clay formation
- New pit chalk formation
- Seaford chalk formation and newhaven chalk Formation (undifferentiated)
- Thanet sand formation

Fault line

Topography & Rivers

- River
- Canal
- River catchments
- Flood zone 2 medium flood risk
- Flood zone 3 high flood risk
- 5 meter contour

Combined habitats

- Still water
- Fen carr
- Ditch
- Reedswamp
- Intertidal mud
- Running water
- Salt marsh
- Typha
- Wet marginal vegetation
- Bog
- Native wood
- Native hedge
- Ancient replanted woodland
- Ancient semi-natural woodland
- Herb-rich grassland
- Heathland
- Acid grassland
- GLA boundary

Consultation on the London Landscape Framework

Following production of the draft London Regional Landscape Framework in March 2009 Natural England consulted with London boroughs and other stakeholders through two workshop events and a written consultation. The results of these informed the final report, updating and refining the framework and adding invaluable local information. Bodies who responded to the consultation and contributed to the final report include the Department of Communities and Local Government, the British Geological Survey, the London Boroughs of Barking and Dagenham, Croydon, Greenwich, Lambeth, Merton, Southwark, Westminster City Council, London Wildlife Trust, the Metropolitan Public Gardens Association, Campaign to Protect Rural England, The Royal Parks Agency, the London Geodiversity Partnership, the Thames Landscape Strategy, South East London Green Chain Partnership, Catherine Bickmore Associates and Continental Landscapes Ltd.
