O=other non-marine

* - there are no blocks numbered S247, S248 and S250 - these were originally adjacent to East Region and when a large block from that area was plotted it was necessary to assimilate these three into it. They were removed from the South Region sequence but the numbering of other South Region blocks was not changed.

- Source
- 1 County/district Phase 1 survey
 - 2 SSSI habitat map
 - 3 Published report (see text for reference)
 - 4 Other type(s) of survey (see text for details)
 - 5 Air photo interpretation
- Origin (soil parent material): M=marine alluvium R=river alluvium P=peat
O=other non-marine

* - there is no block numbered S264 in the South sequence - it has been assimilated into a larger block (E349) in Northamptonshire (East Region). The numbering of the original South Region sequence was left unchanged after assimilation.

+ - no air photos available for this block (ground obscured by stubble burning) - provisional block is marked.
